

Harney County Health Department

Our mission: To respectfully promote, protect, and optimize the health and well-being of all in our community through information, affirmation and self-empowerment.

For full Modernization Plan implementation by 2025, our focus will be preparing to respond, promoting healthy environments with community partnerships, encouraging new ideas for community solutions, and promoting our message clearly and equitably for all. We have collaborated with community organizations to support healthy children, vaccine access, CD data collection to increase the health and viability of our community. We are all working to remedy disparities and find solutions to public health concerns.
