## Independent Auditor's Report

To the Honorable Kate Brown  
Governor of Oregon

To the Public Employees Retirement Board of the  
Oregon Public Employees Retirement System  
Tigard, Oregon

We have audited the accompanying schedule of employer allocations of the Oregon Public Employees Retirement System (the System) Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan) as of and for the fiscal year ended June 30, 2014, and the related notes. We have also audited the total for all employers of the columns titled net pension liability (asset), total deferred outflows of resources, total deferred inflows of resources, and employer total expense (credit) (specified column totals) included in the accompanying schedule of pension amounts by employer of the Plan as of and for the fiscal year ended June 30, 2014, and the related notes.

### *Management's Responsibility for the Schedules*

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability (asset), total deferred outflows of resources, total deferred inflows of resources, and employer total expense (credit) for the total of all participating employers for the Oregon Public Employees Retirement System Cost-Sharing Multiple-Employer Defined Benefit Pension Plan as of and for the fiscal year ended June 30, 2014, in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note 4 to the schedules, changes in benefit terms resulting from the April 30, 2015 Oregon Supreme Court decision are not reflected in the December 31, 2012 actuarial valuation used to measure pension amounts as of and for the fiscal year ended June 30, 2014.

***Other Matter***

We have audited, in accordance with standards generally accepted in the United States of America, the financial statements of the fiduciary activities and the proprietary activities of the Oregon Public Employees Retirement System as of and for the fiscal year ended June 30, 2014, and our report thereon dated December 29, 2014, expressed unmodified opinions on those financial statements.

***Restriction on Use***

Our report is intended solely for the information and use of the System's management, the Audit Committee, the Public Employees Retirement Board, the System's participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

**Note 1 - Description of Plan**

***A. Organization***

Oregon Public Employees Retirement System (PERS) administers a cost-sharing, multiple-employer defined benefit pension plan (the Plan) for units of state government, political subdivisions, community colleges, and school districts, containing multiple actuarial pools. Plan assets may be used to pay the benefits of the employees of any employer that provides pensions through the plan. Participation by state government units, school districts, and community colleges is mandatory. Participation by most political subdivisions is optional, but irrevocable if elected. As of June 30, 2014, there were 912 participating employers and State Agencies.

PERS is administered in accordance with Oregon Revised Statutes (ORS) Chapter 238, Chapter 238A, and Internal Revenue Code Section 401(a). The Oregon Legislature has delegated authority to the Public Employees Retirement Board (Board) to administer and manage the System. All members of the Board are appointed by the governor and confirmed by the state Senate. The governor designates the chairperson. One member must be a public employer manager or a local elected official, one member must be a union-represented public employee or retiree, and three members must have experience in business management, pension management, or investing.

***B. Plan Membership***

The 1995 Legislature enacted Chapter 654, Section 3, Oregon Laws 1995, which has been codified into ORS 238.435. This legislation created a second tier of benefits for those who established membership on or after January 1, 1996. The second tier does not have the Tier One assumed earnings rate guarantee and has a higher normal retirement age of 60, compared to 58 for Tier One. As of June 30, 2014, there were 36,176 active plan members, 118,496 inactive plan members or their beneficiaries currently receiving benefits, 14,901 inactive plan members entitled to but not yet receiving benefits, and 1,712 inactive plan members not eligible for refund or retirement, for a total of 171,285 Tier One members. As of June 30, 2014, there were 43,367 active plan members, 9,447 inactive plan members or their beneficiaries currently receiving benefits, 11,277 inactive plan members entitled to but not yet receiving benefits, and 5,112 inactive plan members not eligible for refund or retirement, for a total of 69,203 Tier Two members in the System.

The 2003 Legislature enacted HB 2020, codified as ORS 238A, which created the Oregon Public Service Retirement Plan (OPSRP). OPSRP consists of the Pension Program (defined benefit), which is part of the Plan and the Individual Account Program, which is reported as a separate plan in PERS financial statements. Membership includes public employees hired on or after August 29, 2003. As of June 30, 2014, there were 85,431 active plan members, 1,195 inactive plan members or their beneficiaries currently receiving benefits, 3,652 inactive plan members entitled to but not yet receiving benefits, and 6,992 inactive plan members not eligible for refund or retirement, for a total of 97,270 OPSRP Pension Program members.

Beginning January 1, 2004, PERS active Tier One and Tier Two members became members of the Individual Account Program (IAP) of OPSRP. PERS members retain their existing Plan accounts, but member contributions are now deposited into the member's IAP account, not into the member's Defined Benefit Plan account. Accounts are credited with earnings and losses net of administrative expenses. OPSRP is part of PERS and is administered by the Board. The PERS

**Oregon Public Employees Retirement System**  
Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

---

Board is directed to adopt any rules necessary to administer OPSRP, and such rules are to be considered part of the plan for IRS purposes.

**Note 2 - Summary of Significant Accounting Policies**

**Governmental Accounting Standards Board (GASB) Statement No. 68**

Employers participating in the Plan are required to report pension information in their financial statements for fiscal periods beginning on or after June 15, 2014, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*.

The requirements of this Statement incorporate provisions intended to reflect the effects of transactions and events related to pensions in the measurement of employer liabilities for pensions and recognition of pension expense and deferred outflows of resources and deferred inflows of resources related to pensions.

The Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer, along with PERS audited financial statements and the Schedule of Pension Amounts under GASB 68 report prepared by PERS' third-party actuaries provide employers with the required information for financial reporting related to PERS pensions provided through the Plan as of and for the fiscal year ended June 30, 2014 (the measurement period).

The accompanying schedules were prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, PERS, adheres to the reporting requirements established by the GASB.

Employers are presented in order by PERS assigned employer reporting number in the Schedules of Employer Allocations and Pension Amounts by Employer. Certain employers have a secondary relationship with primary employers and are included in the primary employers' pension amounts and actuarial valuations. These employers will need to work with their primary employers to determine their proportionate share of allocated pension amounts. Certain employers no longer have payroll subject to pension contributions and are considered "non-reporting". PERS does not have a policy to collect contributions for these employers which have an existing Unfunded Actuarial Liability (UAL).

**Basis of Accounting**

Contributions for employers are recognized on the accrual basis of accounting. Employer contributions to PERS are calculated based on creditable compensation for active members reported by employers. Employer contributions are accrued when due pursuant to legal requirements. These are amounts normally included in the employer statements cut off as of the fifth of the following month. The Schedule of Pension Amounts by Employer does not reflect contributions made by employers after the measurement date. Employer paid member contributions and contributions from members other than judges are reported in the IAP and are not part of the Plan. Appropriate treatment of such amounts is the responsibility of the employer.

# Oregon Public Employees Retirement System

Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

---

The Schedule of Employer Allocations reflects employer proportionate share allocations calculated by PERS for the fiscal year ended June 30, 2014 (the measurement date). Consistent with GASB Statement No. 68, paragraph 50, employer proportions are actuarially determined at December 31, 2012, the date of the actuarial valuation used to measure the collective net pension liability. There were no changes in employer proportions for the fiscal year ended June 30, 2014.

## **Proportionate Share Allocation Methodology**

The basis for the employer's proportion is actuarially determined by comparing the employer's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers. The rate for every employer has at least two major components; Normal Cost Rate and Unfunded Actuarial Liability (UAL) Rate.

The projected long-term contribution effort is estimated by projecting the present value of all future Normal Cost Rate Contributions (PVFNC). The PVFNC represents the portion of the projected long-term contribution effort related to future service.

An employer's PVFNC depends on both the Normal Cost Rates charged on the employer's payrolls, and on the underlying demographics of the respective payrolls. For PERS funding, employers have three different payrolls, each with a different Normal Cost Rate:

- Tier 1/Tier 2 payroll
- OPSRP General Service payroll
- OPSRP Police & Fire payroll

A UAL exists when Plan assets are less than the actuarial liability as measured by the Plan's actuarial funding valuations. UAL can arise in a biennium when an event such as experience differing from the assumptions used in the actuarial valuation occurs. An amortization schedule is established to eliminate the UAL that arises in a given biennium over a fixed period of time if future experience follows assumption. The UAL Rate is the upcoming year's component of the cumulative amortization schedules, stated as a percent of payroll. The UAL represents the portion of the projected long-term contribution effort related to past service.

The projected long-term contribution effort is equal to the sum of the PVFNC and the UAL.

After the employer's projected long-term contribution effort is calculated, that amount is reduced by the value of the employer's supplemental lump-sum payments, known as side accounts, transition surpluses and pre-SLGRP (State and Local Government Rate Pool) surpluses. Side accounts decrease the employer's projected long-term contribution effort because side accounts are effectively pre-paid contributions.

The employer's projected long-term contribution effort does not include contributions toward the current value of transition liabilities and pre-SLGRP (State and Local Government Rate Pool) liabilities, which PERS has determined meet the definition of separately financed employer liabilities.

**Oregon Public Employees Retirement System**  
Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

If the calculation of the employer’s projected long-term contribution effort yields a negative number, the employer’s portion of the projected long-term contribution effort will be set to zero and the employer will be allocated no proportionate share of pension amounts.

**Use of Estimates in the Preparation of the Schedules**

The preparation of these schedules in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

**Relationship to the Basic Financial Statements**

Deferred outflows of resources and deferred inflows of resources relating to differences between actual employer contributions and the employer’s proportionate share of contributions reported in the Schedule of Pension Amounts by Employer are based on employer contributions reported in PERS June 30, 2014 Statement of Changes in Fiduciary Net Position, adjusted to remove the effect of negative employer contributions caused by previously merged then dissolved employers. Contributions do not include payments toward separately financed employer liabilities.

**Note 3 - Net Pension Liability (Asset) and Actuarial Assumptions and Methods**

The components of the employers’ net pension liability/(asset) are as follows (dollars in millions):

Total Pension Liability	\$	63,134.8
Plan Fiduciary Net Position		65,401.5
<b>Employers’ Net Pension (Asset)/Liability</b>	<b>\$</b>	<b><u>(2,266.7)</u></b>

The actuarial measurement of the total pension liability and other pension amounts does not include the IAP.

**Actuarial methods and assumptions**

Valuation Date	December 31, 2012 rolled forward to June 30, 2014
Experience Study Report	2012, published September 18, 2013
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Inflation rate	2.75 percent
Investment rate of return	7.75 percent
Projected salary increases	3.75 percent overall payroll growth; salaries for individuals are assumed to grow at 3.75 percent plus assumed rates of merit/longevity increases based on service
Mortality	Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation.

# Oregon Public Employees Retirement System

Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

	<p>Active members: Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation.</p> <p>Disabled retirees: Mortality rates are a percentage (65% for males, 90% for females) of the RP-2000 static combined disabled mortality sex-distinct table.</p>
--	---

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2012 Experience Study, which reviewed experience for the four-year period ended on December 31, 2012.

## Discount Rate

The discount rate used to measure the total pension liability of the Plan was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2013 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

## Depletion Date Projection

GASB 68 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's Fiduciary Net Position is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 68 will often require that the actuary perform complex projections of future benefit payments and pension plan investments. GASB 68 (paragraph 67) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

# Oregon Public Employees Retirement System

Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

---

The following circumstances justify an alternative evaluation of sufficiency for PERS:

- PERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 68 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is our independent actuary's opinion that the detailed depletion date projections outlined in GASB 68 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

## Deferred Items

Deferred items are calculated at the Plan level and are allocated to employers based on their proportionate share. For fiscal year ended June 30, 2014, there was:

- No difference between expected and actual experience.
- No difference due to changes of assumptions.
- A net difference between projected and actual earnings which is being amortized over a closed five-year period. One-year's amortization is being recognized in the employer's total pension expense for fiscal year 2014.
- No changes in proportion.
- A difference between employer contributions and proportionate share of contributions, which is being amortized over 5.6 years, the remaining service lives of all plan participants, including retirees. One year of this amortization is included in the employer's total pension expense for the measurement period.
- Employer contributions made after the measurement date are not reflected in the Schedule of Pension Amounts by Employer. Appropriate treatment of such amounts is the responsibility of the employer.

## Note 4 - Subsequent Events

### Changes in Plan Provisions Subsequent to Measurement Date:

The Oregon Supreme Court on April 30, 2015, ruled in the Moro decision, that the provisions of Senate Bill 861, signed into law in October 2013, that limited the post-retirement COLA on benefits accrued prior to the signing of the law were unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before the bills were passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a 2% increase annually. PERS will make restoration payments to those benefit recipients.

PERS members who have accrued benefits before and after the effective dates of the 2013 legislation will have a blended COLA rate when they retire.

Notes to the Schedules of Employer Allocations and Pension Amounts by Employer  
As of and for the Fiscal Year Ended June 30, 2014

This is a change in benefit terms subsequent to the measurement date of June 30, 2014, which will be reflected in the next year's actuarial valuations. The impact of the Moro decision on the total pension liability and employer's net pension liability (asset) has not been fully determined. However, PERS' third-party actuaries have estimated the impact of the Moro decision under one possible methodology, which is summarized below (dollars in millions). Estimates have been rounded to the nearest \$10 million.

Net Pension Liability (Asset)	June 30, 2014 Measurement Date	
	Prior to Moro	After Moro (estimated)
Total pension liability	\$ 63,134.8	\$ 68,050.0
Fiduciary net position	65,401.5	65,400.0
<b>Net pension liability (asset)</b>	<b>\$ (2,266.7)</b>	<b>\$ 2,650.0</b>
